No cutting, no guessing, no hassles – no problem™

The Grand Gas Fire Ring™ will conveniently heat up all your cool evenings.

Designed for slab, paver or gravel bases, Necessary's Grand Gas Fire Ring has both style and convenience, and because it's smokeless and ashless, it's an ideal alternative for properties with open burning considerations and restrictions.

Grand Gas Fire Ring:

- 65,000 Btu natural gas
- 304 Stainless steel construction
- Includes all connections, fittings and 50 lbs. lava rock
- Builds fast and easily
- Silver Creek limestone cap (optional)

NOTE: Before planning your Grand Gas Fire Ring project, check with your local zoning commission for building restrictions and required construction permits. Use a licensed/professional plumber for gas line service installation.
